WEDNESDAY, APRIL 17, 1872.

THE REPUBLICAN PARTY.

It used to be a favorite maxim with the New York Tribune in its better days, that we should find out what the enemy want us to do and then avoid the course which they approve, as dangerous to our cause. This maxim is based upon the instinct of hostility, and it is generally safe to assume that a when certain measure or action is favored by an adversary that it is expected to work to the advantage of the latter and against the party taking such action. The present is a very good time for the application of this rule, although the Tribune has become so enamored its new allies, that it has lost its former sagacity in distinguishing between friends and foes, and in its present daze at the possibility that Chappaqua may receive fleeting honors at Cincinnati, has evidently forgotten all the principles which it has hitherto advocated.

The Republican party owes its origin and its present invincibility to the championship of certain great principles, which the American people have approved as essential to the permanence and prosperity of our free institutions. In the championship of those principles the Democratic party has fought us face to face and foot to foot, not only in the arena of legislation but on the bloodiest battlefields that have ever reddened this continent. Those principles are still the watch words of our party and they are still hated and opposed by our open and secret enemies. The banner is still in our hands, and when deserters would rally all classes of the foes of Republicanism for a new political crusade, the people can detect the treachery through its thin disguise, and will gather in compact ranks [illegible] the flag.

The conflicting elements combined in this Cincinnati coalition, the lack of any definite announcement of its objects, the approving and co-operating attitude of the leading Democrats, and the impossibility of its assuming any importance without a fusion of all the bitterest foes to Republican principles, demonstrate plainly enough to satisfy all [illegible] gentlemen, that the movement simply means a reorganizing of the shattered [illegible] ancient enemies under the [illegible] useful renegades from the party of [illegible] liberty and progress. A man cannot serve two masters and skilful as they may deem themselves in political strategy, neither Greeley nor Trumbull nor Schurz can reconcile the clashing creeds of Republicanism and Democracy. They may strut their brief hour upon the stage amid the applause of personal followers and the Democratic claquers who find profit in their abuse of the party which has honored the Senators and enriched the Tribune, but their [illegible] miles is a repudiation of the first [illegible] publicanism, and like [illegible] and [illegible] and Chase they must choose their path where the ways divide. The experiment has been tried before, and we notice that [illegible] who presided at the third-party convention in Philadelphia, of disastrous memory, is awarded unsought [illegible] action by the later cabal. Messrs. Greeley & Co. have but started on their journey; Chase has reached his goal. They are marching straight toward the camp-fires of Democracy and the Bourbon trumpets are already sounding the notes of welcome.

A movement in which the Protectionists of the Tribune and the Free Traders of the Post are equally interested can make no issue upon the tariff; a coalition of "bloated bond holders" and repudiating Democrats can construct no financial platform, and the more the incongruities of these elements are considered, the plainer it appears that the only cause which they can have in common is hostility to the Republican party and its principles. The adulation now bestowed upon the Republican bolters by the Democratic press, from the late organ of Tammany down to the exponents of rural Bourbonism, is a sufficient warning to the intelligent supporters of the Republican party, and it matters not how the leaders of the opposition may be brought into the field, whether under the old copperhead chieftains or apostate Republicans, the grand army of loyal, honest and earnest believers in the principles so nobly vindicated during the past decade, will be found shoulder to shoulder as on former battle grounds, and their standard, borne by the same hands which upheld it at Donelson, Vicksburg and Appomattox, will as surely and gloriously wave in victory again over the battled [illegible] of 1872.

The Portland Press, in referring to Senator Wilson's book on the "Rise and Fall of the Slave Power in America," recalls the incident that when, in 1843, Hannibal Hamlin, then a Democrat, was first elected to the House, the noble stand he immediately took in favor of the right of petition, of which John Quincy Adams was then the great champion in the interest of the anti-slavery cause, was hailed with delight by the "Old Man Eloquent" as a strange but most gratifying phenomenon. When Mr. Hamlin had closed his speech, Mr. Adams, who had listened with marked attention, crossed the hall and offered his hand, with the remark: "Light breaketh in the East!"

The meeting at City Hall last evening showed that the interest in manufactures is well sustained, and excellent progress was reported in several directions. The establishment of a Board of Trade and Manufactures is an important measure and one which will be most serviceable in forwarding our local enterprises. Organization is the powerful agent in all such movements, and a vigorous Board comprising influential and public spirited citizens will be able to give impetus to the projects for developing our facilities.

The Boston Globe says of the attempt to fuse Republicanism with the Ku-Klux element of the South:

Even Hercules with all his strength could not withstand the poisoned shirt of Nessus and the desperate shift to which Mr. Trumbull and his confreres are driven, in courting the association of the ex rebel element, while it shows how wild and vague must be the expectations of success for the Cincinnati movement, threatens to consume them to their very bones. As we have said before, there is a possibility that something may come out of the new movement, but we have seen nothing to indicate it yet, even with the New York demonstration to help [illegible] movement on. If the Presidential contest is to be thereby affected, it will be in consequence of some new and unexpected turn of events, to transpire in the future.

The National Colored Convention at New Orleans on Monday, adopted a platform declaring their allegiance to the Republican party, their gratitude to and endorsement of President Grant, their admiration for Charles Sumner, and their confidence that he will continue faithful to the Republican party.

Marcellus Emery's Commercial praises Hon. John A. Peters' Alabama resolution. Mr. Peters and his friends must find the experience a novel one. But the Commercial is not at all "red hot," as the weekly Democrat used to be.—[Portland Press.

GATHERING AT KENDUSKEAG—DETERMINATION TO BUILD THE ROAD.

Notwithstanding the bad condition of the roads, there was quite a large gathering at Kenduskeag yesterday, comprising representative men from the towns of Kenduskeag, Levant, East Corinth, Charleston, and other towns interested interested in the proposed road from Bangor to East Dover, through Kenduskeag, East Corinth and Charleston.

The meeting was called to order by John Morison, Esq., of East Corinth, upon whose motion E. F. Crane, Esq., of Kenduskeag, was chosen Chairman and D. F. Davis, Esq., of East Corinth, Secretary.

The Chairman announced the objects of the meeting and called for remarks from John Morison of East Corinth.

Mr. Morison was warmly in favor of a road, and believed that the time had already come for action. This meeting was called to see whether the people on the line of the proposed road were in earnest in the matter, and were willing to give that energy and determination to the work which would make it a success. A charter had been secured, and the next step was to procure a preliminary survey. It was useless to spend further time and money unless they were united in a desire for the road and determined that it should be built, no matter how great the efforts required. He believed that Corinth would be able to complete the road through the entire length of the town. Many would be willing to furnish labor who were unable to subscribe money for stock, and the road could easily be graded by direct taxation. The town would then issue bonds for money enough to lay the iron. He thought other towns would do as much, or more, and the road might thus be built.

Mr. D. F. Davis of East Corinth thought it a matter of vital interest to the people of that section, and should be carefully considered. The questions to be asked are, "Do we need the road?" "Can we build it?" "Will it pay?" On the line of this proposed road there is a vast amount of water power which might be used to a much greater extent than at present. In Levant there are four different mills in operation. Kenduskeag manufactures large amounts of lumber—over three millions a year—nearly all of which has to be transported to Bangor by horse-teams, a very slow and expensive process. Corinth has five mills on the line of the road doing a good business. There are are two in Exeter, only two or three miles from the road, and there are four in Charleston, making seventeen mills on the line of this proposed road, in successful operation. The products of these mills over home consumption are transported to Bangor with teams, rather an old-fashioned and expensive manner. Besides this there were two millions or more lumber driven to Bangor and manufactured there, and the vast tracts of timber in the vicinity gave abundant evidence that much more might be done in securing and manufacturing lumber. We had any quantity of hard wood which a railroad would bring into market, which is now comparatively of little value.—The road will aid materially to the value of real estate. After the Maine Central railroad was built from Waterville to Bangor, thousands of acres of hard wood lands advanced from $5 to $20 per acre, and it would be the same on the line of this road. This is a fine agricultural region, and the census returns show that we raise large quantities of potatoes and other produce, much of which would be shipped to Bangor. We are surrounded by four railroads, all just far enough off to be useless to us. They have made us to all intents and purposes an island, without a friendly sail in sight of which would gladden our hearts, and enable us to reach a market. The towns to be benefitted by this road have a valuation of more than $2,000,000, and this amount would be largely increased by an outlet. Massachusetts has been developed by railroads until she is teeming with business and wealth. She has one mile of railroad to every six square miles of territory, and this is the secret of her success. Precisely the same policy will develop our State, and he ventured the prediction that the extension of railroads would place us before the world as the rival of Massachusetts. Our population had decreased during the last decade, and we must have this line of road to develop our county and enable us to compete successfully with our more favored neighbors.

Benj. Ball, Esq., of East Corinth, spoke earnestly and ably for the road. This is an age of railroads, and while we have been lying idle, people in other localities have established a net-work of railroads which extend all over the country. We need the road, the people want it, and by an earnest and united effort can secure it. This is not a wealthy section of the State, but each one can do something, and that something is just what is needed to make the road a success.

The importance of the proposed road was advocated by Capt. Roberts and Dr. Huckins, and Mr. Parsons of East Corinth, Messrs. E F. Cram, Crosby Clements, Mr. Weld, E. Garland, P. T. Batchelder, Mr. Higgins George F. North, Mr. Nason and Jona. Hodsdon of Kenduskeag, Rev. Mr. Goucher of Charleston, Messrs. Dow, Stanley, and Gilman of Levant, Wm. Goodwin of Corinth, and the Rev. Mr. Gerrish, all of whom were earnest in its support.

Mr. Hosea Ham of East Corinth pitched in a hot shot or two, causing quite a sizzling in the meeting. He was not quite so sanguine about the prospects of the road, and not quite so sure that it would greatly enhance the value of his property. If built, the people must do it. If it was a financial success it was all right. If it proved a failure they must be prepared to foot the bills. He shouldn't care to have them cross his farm. About the same as a wall of fire.

This caused considerable pleasant sparring between Mr. Goodwin, Mr. Ham and Mr. Davis, after which Mr. Ham made some very practical remarks which certainly showed anything but unfriendliness to the project.

On motion of John Morison, the chair appointed as a committee to nominate two from each town to solicit money to secure a preliminary survey, John Morison of East Corinth, P. T. Batchelder of Kenduskeag, F. Duning of Charleston, and David Gilman of Levant, who subsequently reported as that committee, C. H. Norcross and H. C. Holden of Charleston, Jared Fuller and Jason Huckins of Corinth, Wm. Higgins and George F. North of Kenduskeag, and Searles Dore and Fred'k Perkins of Levant.

It was voted to hold a meeting at Nichols' Hall, East Corinth, on Thursday, April 25th, to organize under the charter.

The meeting can hardly be said to have been large or enthusiastic but rather an earnest and determined one which augurs well for the success of the enterprise.

Adjourned to meet at the Town House in Charleston, Tuesday, April 23d, at 1 o'clock P. M.

The above cut represents DUNNING'S PATENT IMPROVED ICE PRESERVER. This Preserver is made of felt, flannel, and other materials which are non-conductors of heat, and as to its durability, it will last during one's natural life with ordinary care. There is not a question but what it will save from one-half to two-thirds the quantity of ice used in Hotels, Boarding-houses, and Hospitals, to say nothing about the great amount of travel saved by servants. One pitcher of ice each day for a boarder's room in the heat of summer is all that would be required if covered with this Preserver. As a cover for a pitcher of cold water to preserve it in that state, and protect it from the dust and impurities in the atmosphere which water always takes up, it is worth double the money asked for them. Where water is obtained from cold springs in cases of sickness, with no ice, and it is desirable to keep it cool, this Preserver is invaluable. Think of the value of it to a sick person longing for a drink of cold water during the hours of a hot summer night. The difference between an invalid reaching out of bed and taking a swallow of pure ice or cold water, or one from a pitcher of tepid water that has been taking up the poison in the atmosphere of a sick room for eight or ten hours, is not to be measured by dollars and cents by any one who values health or comfort. Think of the luxury and comfort it would afford to thousands of factory girls in the heat of summer, where four girls working together could furnish themselves with one for less than one dollar each, and by placing it over a two quart pitcher of ice in the morning they would find it sufficient for the whole day. If it were only to keep a pitcher of cold water free from the dust common to all cotton, woolen, and other factories, the price would be no object, especially if the health of the operatives was taken into account. The value of this Patent Ice Preserver in the Southern States must be apparent to every one, where ice is frequently sold for six or eight cents per pound. It may work a little rough on the ice dealers but well with the consumers, as a person can take a common earthen two quart pitcher and put into it four or five pounds of ice, and place it under one of these Preservers and it will be from twenty-four to thirty hours before it all melts, with the thermometer from seventy-five to eighty-five above zero. For the sake of introducing them extensively I have put the price as low as I can and leave a fair business profit. It is all important that in placing the Ice Preserver over the pitcher that the bottom should rest fair on the table to exclude the air. They will be got up to order highly ornamented or in any way parties may desire. The Flannel lining undergoes a chemical preparation which prevents it from being injured by the moisture. Orders will be received for the Improved Patent Ice Preserver by the dozen, or for State, County or Town rights, by JAMES DUNNING, Bangor, Me. Or by wholesale or retail of J. S. RICKER & CO., Crockery Ware Dealer, Main Street, Bangor. apr15 tf

"LIVE AND LET LIVE." The Great Question of the day. 'Manufacturing.' We have manufactured in this city for more than twenty five years, employing from thirty to seventy five men and women, making the very best work at as low prices as can be produced in any market. Yet the parties who are so enthusiastic in regard to manufacturing in Bangor, patronize Foreign Manufacturers rather than home talent. SUCH IS THE FACT. Now let us see a change to encourage home industry, and our city will increase in population, and our manufacturers prosper. Patronize Us, MEN, WOMEN & CHILDREN. We will give you your money's worth and a little more. We have now on hand and are closing out a large lot of Ladies,' Misses' and Children's BOOTS & SHOES of the first quality and at very low prices to make room for work of our own manufacture. DOMESTIC NEWS

FROM NEW YORK.

AN ACTIVE BURGLAR.

NEW YORK, April 16. Henry Taylor, a notorious burglar, was captured at Trenton and held in $5,000 for trial. Thirty-seven people appeared against him and two church carpets, beside a large quantity of other plunder were found in his house.

THE METHODIST CONFERENCE

to-day adopted a resolution condemning Sunday mail trains on the ground that they lead to Sunday travel and a consequent violation of the Sabbath, incidentally leading to Communism.

IN GENERAL.

The Brooklyn Aldermen resolved yesterday to investigate the proceedings connected with the East River Bridge.

The Georgia Investigating Committee examined Henry Clews yesterday relative to the financial arrangements of ex-Governor Bullock. Robt. Toombs, their Attorney, is expected to arrive to-day.

Rev. Dr. Tyng, who leaves for Europe to-morrow, was yesterday presented with $5000 by the members of his church.

At Greenport, L. I., a train cut an unknown man in pieces last night.

The habeas corpus cases which were expected to release some 300 criminals, have been postponed till Thursday.

THE ALABAMA CONTROVERSY

DISCUSSION OF GRANVILLE'S NOTE—SECRETARY FISH SATISFIED WITH OUR POSITION.

NEW YORK, April 16. The Herald's Washington dispatch states that the Cabinet will discuss the answer to Lord Granville's second note on the Alabama claims, to-day. Sec'y Fish declares himself satisfied with the position in which the present dispatch leaves our side of the question.

A STARTLING REPORT—ALLEGED DISCOVERY OF PROOFS OF ENGLAND'S DIRECT NEGOTIATION WITH THE REBEL AGENTS—A TRUMP CARD IF TRUE.

It is stated that Secretary Fish intends a grand *coup d' etat*, based on recently discovered documents which develop the following facts:—

That during the war, informal but actual conferences were going on between the English Foreign Office and one of the accredited Rebel Agents in London, in aid of the Rebels besides looking to a formal recognition of the Rebel States.

These negotiations included distinct propositions for carrying on the construction and equipment of Rebel cruisers in England and granting to them of privileges in British Colonial ports, not allowed to United States vessels.

PRESIDENT WOOLSEY,

of Yale College, prints a denial that he favors the American case as submitted to the Geneva Arbitrators; but on the contrary condemns it and always has since he first saw the entire text.

DENIAL BY REVERDY JOHNSON.

BALTIMORE, Md., 16. Reverdy Johnson says that the special dispatch from Washington to a New York paper, giving him as authority for the statement that the President regrets that the claims for consequential damages were put in our case against England, is entirely unauthorized. He has had no conversation with the President.

THE ENGLISH PROTEST AT GENEVA.

LONDON, April 16. The following note accompanied the counter case delivered to the Board of Arbitration at Geneva yesterday on behalf of Great Britain:

The undersigned is instructed by Her Majesty's Government to say that while presenting their counter case, under the special reservation hereinafter mentioned, they find it incumbent upon them to inform the Arbitrators that a misunderstanding has unfortunately arisen between Great Britain and the United States touching the nature and extent of the claims referred to in the Treaty of Washington. The misunderstanding relates to claims for indirect losses, under three heads: First, loss in the transfer of American shipping to the British flag. Second, loss from enhanced insurance. Third, loss from the prolongation of the war. The claims for indirect losses are not admitted by Her Majesty's Government to be within the scope and intention of arbitration. Her Majesty's Government have been and still are in correspondence with the Government of the United States, in relation thereto. As that correspondence has not been brought to a final issue, Her Majesty's Government, before the arbitration shall proceed with reference to claims for direct loss, they have thought it proper meantime to present a counter-case which is strictly confined to direct claims in the hope that the unfortunate misunderstanding may be removed.

Her Majesty's Government expressly and formally notify the Arbitrators that this counter case is presented without prejudice to the position assumed by Her Majesty's Government in the correspondence whereto reference has been made, and under the express reservation of all Her Majesty's rights in the event of the differences continuing to exist between the parties. If necessary, further communication will be made to the Arbitrators.

(Signed) TENTERDEN.

A special dispatch from Geneva to the Daily News says it is feared that the nature of the protest against the jurisdiction of the Arbitrators at Geneva over the American claims for indirect damages, which accompanies the British counter case, may prevent a settlement of the dispute between England and America under these claims.

WASHINGTON.

THE REVENUE BILL.

WASHINGTON, April 16. The revenue bill to be reported to day from the Ways and Means Committee, reduces the tariff by less than 19 millions of dollars and the internal revenue by about a million and a half. The stamp tax on bank checks is abolished.

THE ARMS INQUIRY.

The Senate Arms Committee examined two clerks of the War Department who denied that any letter from the Secretary of War to the Secretary of State was read in the presence of Chambrun.

THE COLORED PEOPLE

to-day celebrated the anniversary of the proclamation abolishing slavery in the District of Columbia. The display was fine, and the procession was reviewed by the President accompanied by all the members of the Cabinet.

THE MORSE MEMORIAL SERVICES.

The hall of the House of Representatives was densely crowded to-night on the occasion of the memorial services of Prof. Morse.

MASSACHUSETTS.

THE HOMŒPATHIC FAIR.

BOSTON, April 16. A fair in aid of the Homœpathic Hospital, now open in Music and Horticultural Halls, is the largest and in many respects the most attractive ever held in Boston. Nearly a thousand ladies are actively engaged in it, and all the principal cities in the United States are represented.

THE MORSE MEMORIAL.

The meeting in honor of the late Professor S. F. B. Morse, this evening, was presided over by Mayor Gaston. Gov. Claflin and 150 others were Vice Presidents. Many of the most prominent merchants and numerous literary gentlemen were included in the assemblage. Speeches were made by distinguished gentlemen. The meeting was in session two hours and a half and the interest manifested was in keeping with the memorable occasion.

FORTY-SECOND CONGRESS—SECOND SESSION.

WASHINGTON, D. C., April 16.

SENATE.

A bill was passed for the redemption and sale of public lands under the acts levying direct taxes. It excludes all lots used as national cemeteries or for naval or military purposes. A joint resolution was introduced allowing American officials in France to accept testimonials from the German Emperor for services to Germans during the war.

The Senate went into executive session and soon adjourned.

HOUSE.

A Conference Committee was ordered on the bill relating to contracts for transporting the mails.

Mr Dawes, from the Ways and Means Committee, reported a bill reducing the duties on imports and internal taxes. It was made the special order in Committee of the Whole for Tuesday next and thereafter until disposed of.

Mr. Kelley of Pa., desired to introduce a minority report, but objections were made, when a colloquial debate took place which developed the fact that Messrs Kelley of Pa. and Maynard of Tenn., were agreed on one minority report and Mr. Brooks of New York and two others on another, leaving Mr. Dawes' report endorsed by four of the committee out of nine.

Mr. Dawes proceeded to address the House on the tariff bill.

Mr Dawes said the amount of the reduction on the basis of last year's receipts is as follows:

Tea,		$2,348,639
Coffee,		2,940,309
Coal,		323,881
Salt,		615,522
Leather,		520,258
Iron and manufactures,		2,137,223
Steel and manufactures,		747,539
Wool,		539,823
Woolen manufactures,		4,759,680
Woolen carpets,		197,772
Cotton manufactures		788,724
Copper manufactures,		39,641
Chemicals, drugs, &c.,		584,862
Cork manufactured,		28,715
Lumber,		761,861
All other articles,		212
Free list,		1,584,667
Total,		$18,052,438
Internal Revenue—Tobacco,		6,720,000
	Gas,	2,573,123
	Bank Checks,	1,250,000
	Matches,	2,250,000
	Agree't stamps,	100,000
Total,		$12,893,623
Grand Total,		$31,845,561

Mr Dawes proceeded to explain the bill at length, saying that the committee had endeavored to throw safeguards around the administration of the custom houses and has greatly simplified the laws pertaining to the internal revenue.

Mr Maynard obtained leave to introduce the bill on which himself and Mr Kelley, as the minority committee, agreed.

Mr. Ketchum of N. Y., from the Conference Committee on the St. Croix and Lake Superior land grant bill, reported that the Committee was unable to agree and moved that the House insist on its action and appoint another committee.

Mr Scofield of Pa., moved that the House recede from action, which would have the effect of passing the Senate bill.

Mr. Holman of Ind., moved that the House adhere to its action which would make it final.

Mr. Scofield's motion was rejected 57 to 115, and Mr. Holman's adopted 110 to 64. This amounts to the rejection of the bill

Adjourned.

CONNECTICUT

MURDER TRIAL.

NEW HAVEN, Ct., April 16. The trial of Lydia Sherman for the poisoning of her husband, H. N Sherman last May in Derby, began to day in this city. Mrs. Sherman was brought into the court at 10 o'clock, looking well after her confinement in jail for some nine months. The indictment contains four counts. First, that Mrs. Sherman did feloniously mix arsenic in chocolate on the 8th of May, 1871, and give it to Mr. Sherman; second, that at divers times between the 8th and 12th of May she mixed arsenic in gruel and gave it to Mr. Sherman. The third and last counts are substantially the same as the first line with legal changes of wording. Mrs. Sherman pleaded not guilty to the indictment and the trial began.

PENNSYLVANIA.

CITIZEN'S PARTY.

PHILADELPHIA, April 16. The citizens of the Municipal Reform Association will nominate candidates for city offices next month to offset both the other parties.

UTAH.

AFFAIRS AT SALT LAKE.

SALT LAKE, April 15. A sale to eastern capitalists of the mountain Lion mine in the Ophir district, for $200,000, is reported.

Judge Hawley returned to-day from the East.

A new Gentile paper, the Evening Express, will be issued on the first of May.

The snow is rapidly melting in the mining districts. Large numbers are leaving for the Placer diggings on Colorado river.

HOMICIDE—THE APACHES.

SAN FRANCISCO, April 16. Mrs. Burkhart. who was shot by Nickerson for refusing to marry him, died yesterday.

The Apache Indians in Arizona recently captured a large train near Camp Bowie, murdering the attendants.

TEXAS.

A CHECK TO MEXICAN RECRUITING.

NEW YORK, April 16. A Matamoras dispatch states that Gen. Augur sent a force to Laredo, Texas, and captured 40 men and some arms. The men had been enlisted by one Valdez, ostensibly for the service of Juarez, but the prisoners state that Valdez offered, as an inducement to enlist, the privilege of sacking several Mexican towns. Some 100 men have been thus gathered, and 400 more were expected from the interior of Texas when their camp was broken up by Gen. Augur.

THE WEATHER

WAR DEPARTMENT,
OFFICE OF THE CHIEF SIGNAL OFFICER
WASHINGTON, April 17.—1 A. M.,
Probabilities.

Clear and pleasant weather will generally prevail on Wednesday over the New England, Middle and South Atlantic and Gulf States. Threatening weather, and possibly rain, will prevail from Tennessee northward and westward. Dangerous winds are not anticipated.

FOREIGN NEWS.

GREAT BRITAIN.

THE REPORTED FRANCO-GERMAN COMPLICATIONS—ORIGIN OF THE REPORTS.

London, April 16. The following statement gives the only authority and foundation so far as ascertained, for the reported differences between France and Germany:—The London Telegraph of Monday, basing an editorial article upon assertions made by its Paris and Berlin correspondents said: "We regret to learn of the relations between France and Germany, the critical condition whereof, made known through these columns, is causing the greatest anxiety to those by whom it is best appreciated." The Telegraph further expressed the belief that it is "only by the exercise of discretion at Paris and Berlin, that grave complication may be avoided."

THE REPORTS FROM GERMANY.

The statements of the correspondents upon which the foregoing is predicated, are in substance that Germany distrusts the good faith of France; is displeased at the extent of the armament and military organization which the Thiers Government is carrying forward and that Prince Bismarck is about to enter a formal protest against the course which France is pursuing and in which he will declare the necessity of prompt, decisive action on the part of Germany, even to the extent of reoccupying the Departments of France lately evacuated by the German troops. The Telegraph asserts editorially that it knows on the highest authority that the speech of Thiers at the adjournment of the French Assembly created a grave impression at Berlin."

THE REPORTS DOUBTED.

Neither letters nor editorials in any London newspapers, give confirmation or countenance to the assertions of the Telegraph, and while it has been hinted that the journal is in some way in the service and interest of the German Chancellor, the more general expression is that the whole story is fabricated either as a sensation or with the design of [illegible]

—Nothing new on the ice question.

—The country roads are growing much better.

—The season for carpet-shaking has arrived.

—The Harriman House is receiving a new coat.

—Freight business continues very large on the railroads.

—Most of the business streets were dry yesterday, and dust blowing.

—Weather cooler yesterday, and a sharp snow-squall at 3 o'clock in the afternoon.

—The city teams were hauling off stones and pebbles raked out the streets yesterday.

—Ira Goodhue's saloon on Pickering square was burgled of $25 worth of cigars Saturday night.

—Workmen will commence excavating for the foundation of the new block on Main-st in a few days.

—Notes due to-morrow, Fast Day, must be paid to-day—a fact that business men will do well to remember.

—The Headquarters of the Department of Maine, Grand Army of the Republic, have been established in Room No. 2, second floor of Bowman's block, east end of Kenduskeag bridge.

—We understand that some of the largest dealers in intoxicating liquors in this city have decided to entirely give up the business and will be allowed to send back to Boston the stocks they now have on hand.

—Mr. W. Scott Nickerson of this city has just finished a paper shell, which those posted in rowing matters pronounce an excelent model and well made. It is 30 feet 3 inches long, 9 inches wide at the cock-pit which is 7 inches deep.

—The employees of the old Portland & Kennebec Railroad are to have a social gathering at Granite Hall, Augusta, this evening. The ladies are to be in attendance, there is to be a supper, music by Chandler's Band, dancing and other interesting exercises.

—The police seized yesterday on the premises of Gideon Ray on Kossuth-st., a large lot of liquors, valued at $1000; and in a carriage house on the "Tyler place" on Hammond-st., two full barrels marked Hiram Grant, Hampden.

—We noticed yesterday a fine pair of steers fatted by B. P. Gilman Esq. of Orono. They weigh over four thousand pounds, and will be slaughtered for Messrs. Jones & Trickey, who propose to furnish their customers with some of the choicest beef ever displayed in this market.

—Capt. Hermon Bartlett, Inspector in the Custom House, while assisting in measuring the new schooner on the stocks in Oakes' yard in Brewer, yesterday afternoon, was precipitated into the hold by the giving way of a plank on which he was standing, and his right arm and side badly injured. He was rendered insensible by the shock, but soon recovered, and was afterwards able to walk home.

—The Oldtown Dramatic Club will give their dramatic entertainment (postponed from the 3d inst.) on Thursday evening at the Town Hall, Oldtown, when they will present the drama "La Tour de Nesle" and the farce "The Yankee Peddler." We understand that the company received a pressing invitation from the citizens of Dover to play there May 1st, but were obliged to decline on account of some of the members being so engaged that they could not leave.

VILLA & MINER. Villa & Miner's company gave their second performance in Norombega Hall last evening to an audience [illegible] They played the farce of "Mr. and Mrs. [illegible]" [illegible] of laughter, while the new burlesque was excessively funny and was very elegantly costumed—Mr. Villa's "Doly Varden" in particular being got up in the highest style of art. The members of the company all acquitted themselves well. To-night the ever-popular drama of "Caste" will be performed, with Agnes Wallace as "Polly Eccles," Mr. Villa as "D'Alroy," and Mr. Clarke as "Sam Gerridge."

ROBERT COLLYER. Our people are to enjoy a double treat on Fast Day and evening, in hearing a sermon and a lecture from this distinguished divine. We learn that the committee have been successful in their efforts to induce Dr. Collyer to preach in the Unitarian church on Thursday afternoon. Services will commence at 3 o'clock. Dr. C.'s lecture in the evening—for which we understand tickets are selling very rapidly—on "CLEAR GRIT," is one of his very best, and we advise every one to hear it, who can. It is not often that such a man comes amongst us, and when, as in this case, both manner and matter combine to attract, no one should raise the offered opportunity.

PRESENTATION. At a meeting of the Jameson Guards in their armory last evening, Serg't Charles D. Clark, who has officiated as clerk of the company since its organization, was called out of the ranks, and thus addressed by Serg't James M. Davis:—

Sergeant Clark,—The Jameson Guards have detailed me this evening for special duty —a duty, however, which I most gladly perform under the circumstances. Long recognizing the value of your voluntary and uncompensated services as Clerk of our company, as well as the zeal which has ever marked your efforts for our common good, we have procured for you a *souvenir*—a testimonial of the good will and affection we all have for you, which has never been diminished in the least, and which never will. Please accept, then, this chain, and may each link serve to bind us more firmly together in the love, respect and hearty good-fellowship which unites us all as members of our good old company, the Jameson Guards.

Mr. Clark was completely taken by surprise, as he had not the least idea of what was coming, but he returned his thanks in a manner which showed how deeply he was moved by this token of the affection of his comrades.

The testimonial, a long watch-chain of the best gold costing $125, bears the inscription on the massive slide, "Presented to Serg't Charles D. Clark, by the Jameson Guards, April, 1872."

MANUFACTURES IN BANGOR.

THIRD MEETING IN CITY HALL—REPORTS OF THE COMMITTEES, SPEECHES, ETC.

The third meeting for the encouragement of manufactures in this city, was held last evening in City Hall, which edifice was crowded to its utmost capacity. Mayor Wheelwright presided, and on calling the meeting to order, made a brief speech in which he alluded to the progress of the movement in favor of manufactures, and the hopeful outlook for the future, as by extracts from papers in other States it was shown that many manufacturers in Massachusetts and New York were turning their attention to the advantages offered by Maine for the carrying on of their business. To obtain a guaranty fund to be placed in the hands of Trustees "for the aid, assistance and encouragement of manufacturing enterprises," J. P. Bass, esq., had carried to a few of our citizens a subscription paper, and already $1,200 had been subscribed to be paid once a year for five years. This fund can easily be raised to $5,000 per annum for five years, and the Chairman in conclusion hoped the citizens would meet the subscription in a liberal spirit, as it would prove a first-class investment.

G. W. Merrill, esq., from the Committee of Ten, appointed at the last citizens' meeting to prepare and present a plan for the formation and organization of a Board of Trade and Manufactures, made the following

REPORT:

The Committee of Ten, appointed at the citizen's meeting held at this place last week, to organize a Board of Trade and Manufactures, have attended to that duty and beg leave to report:—

Your Committee have had three meetings. At the first a sub-committee of three was chosen to draft a constitution, and accordingly prepared one with great care, keeping the objects of the Association strictly in view. The second meeting of the Committee was for the purpose of perfecting the Constitution, which was taken up article by article, carefully examined and passed upon. The third meeting was for the completion of the organization by signing the constitution that we might have it ready to present to this meeting. Your Committee have chosen no officers and do not propose to, as before officers are elected they wish to have the constitution presented to our business men and would like to have every citizen who feels an interest in the prosperity of Bangor and vicinity, sign it and become an active member of the Association.

"In Union there is Strength," and your Committee fully believe that if the merchants, manufacturers, mechanics and capitalists can be united in this great enterprise and all put their shoulders to the wheel, manufactories of various kinds will be established at once. It depends entirely upon ourselves; every business man in Bangor has something to say and to do in this matter. You cannot expect this Board of Trade and Manufactures to do all, but they can do much in uniting and creating a favorable public sentiment, in keeping this subject before our own people by discussion and other means, and in letting the public know by publications and otherwise of the resources and advantages our city presents to manufacturers. Out of this constant agitation something substantial must come, and manufacturers from abroad (as some of them have already indicated) will find it is for their interest to establish their manufactories in Bangor. Our city government is ready to extend liberal encouragement to all manufacturing enterprises, and will, no doubt, exempt them from taxation for ten years, as has been done in many of the cities and towns of our State.

Dr. Tefft then read the following preamble and constitution as arranged by the Committee:—

PREAMBLE.

We, citizens of Bangor and Brewer, in order to form a more perfect concentration of business interests to encourage home trade, to add to and enlarge our manufactures, and to develope the material resources of this locality, and thus to promote the general welfare of our population, do ordain and establish a BOARD OF TRADE AND MANUFACTURES, to exist and act under the following

CONSTITUTION:

ARTICLE I.—The officers of this Association shall consist of a President, eight Vice-Presidents, a Secretary, a Treasurer, and an Executive Committee of nine members.

ARTICLE II.—It shall be the duty of the President to preside at all meetings of this association, or, in his absence, of either one of the Vice-Presidents, according to the order given them at their election, from first to eighth, inclusively.

ARTICLE III.—It shall be the duty of the Secretary to make and keep the records of all meetings, to hold [illegible] [illegible] with all the records and files therein preserved, shall be held by him free to the inspection of all members.

ARTICLE IV.—It shall be the duty of the Treasurer to keep all moneys, or other funds and properties, with all instruments showing proof of ownership, together with a regular account of all the pecuniary transactions of the Association, to pay all drafts regularly and lawfully made upon him, and to keep his books and accounts open to the examination of the Executive Committee.

ARTICLE V.—It shall be the duty of the Executive Committee, of which the President, first Vice-President, Secretary and Treasurer shall be *ex-officio* members, to see that all the officers of the Association perform their duties; to execute all the orders of the Association not assigned directly to some other officer or member; to receive, arrange and prepare all business to be presented to the Association for its action; to order all drafts upon the Treasury; and to do and perform all other acts which the Association itself could do, when not ordered otherwise by a vote of the members of the Association at a regularly-called meeting.

ARTICLE VI.—All the officers as above provided for shall be elected annually, and the annual election shall be held on the afternoon of the first Monday in March, between the hours of two and six o'clock, by ballot, each member of the Association who has paid all dues to it having one vote: *Provided, nevertheless*, that the officers chosen at the first meeting of the Association shall act only till the first Monday of March, 1873, at whatever time they may be elected.

ARTICLE VII.—All regulations, rules, orders, laws, and by-laws, that may be deemed necessary, to carry out the objects of this Association, shall be made and published to the members by the Executive Committee, and be capable of alteration, amendment, or substitution by the same, subject only to the ratification of the Society at its annual meeting.

ARTICLE VIII.—All citizens of Bangor and Brewer, of the age of twenty-one years, shall be eligible as members of this Association on the payment of three dollars into the Treasury and signing this constitution; and they may remain members so long as they shall pay all assessments that are lawfully made upon them as members, and no longer.

ARTICLE IX.—All meetings of this Association, excepting only the annual meeting, the date of which is hereby fixed, and the first meeting, which shall be only for the choice of officers, shall be called by authority of the Executive Committee, and notice given in the Bangor daily newspapers, at least fourteen days prior to said meeting: *provided* only that the first meeting, as above, may be called by the Citizens' Committee of Ten upon a three days' notice similarly published.

ARTICLE X.—This constitution, and all laws, by laws, rules, orders, and regulations may, at any annual meeting, or at any meeting called expressly for the purpose—the object being stated in the call, and the call published at least fourteen days prior to the said meeting, in the Bangor daily newspapers—be altered or amended by a two-thirds vote of all the members of this Association, who shall be present and cast their votes, and have no dues to the Society unpaid against them.

ARTICLE XI.—The signature of fifty names of citizens of Bangor and Brewer, and the payment as above provided for membership, shall be a sufficient ratification of this constitution, to make it binding on those signing it.

Done in Bangor, State of Maine, in the year of our Lord, one thousand, eight hundred and seventy-two, April the fifteenth. In witness whereof, we have hereunto subscribed our names, with places of residence annexed:

[Signed by G. W. Merrill, B. F. Tefft, J. C. White, Michael Schwartz Isaiah Stetson, Charles Hayward, Lysander Strickland, B. N. Thoms, J. O'B. Darling and Isaac M. Bragg; Committee of Ten, and sixty others.]

Dr. Tefft then read a report from the original Committee of Nine, showing the progress they had made since the last meeting.

From the report, which for want of space we are unable to give in full, we gather that the prospect is very encouraging—in the language of the chairman; "the sky brightens," "after the long, dark, dreary night that has brooded over the manufacturing interests of Bangor and Brewer." "The more we fix our attention on the possibilities of our future, the more we are satisfied that this locality may be, must be, the great manufacturing center of this portion of New England. We may not see it, but the child will soon come forth who shall behold Bangor, including Brewer as the manufacturing quarter, equal to any city in size and business to be found in New England outside of Boston." A number of meetings have been held by the committee, who have carefully looked the ground over and find a wonderful unanimity of opinion that this moment is a crisis in the history o' Bangor, and a determination, equally remarkable, to take hold together and make the utmost of the present opportunities.

One member of the committee (Mr. Bass) has been out among the people to see how much, could be done to raise a sort of guaranty fund to aid in the encouragement of founding manufacturing enterprises among us, and has met with a very flattering reception so far as he has gone, and it is the unanimous opinion of the committee that the attempt should be pushed forward till the fund reaches $5000, as it would be the means of establishing at least two large factories at once among us.

The committee has asked the city to sell the "old burial ground" for $12,000, on ten years without interest, and report the positive assurance that if the city will grant the petition, at least $30,000 shall be spent on it this season, in the way of structures for manufacturing purposes. The party making this proposition is ready to give ample security for the fulfilment of this pledge, the moment the city acts favorably upon it.

A sub-committee has visited the City Council in regard to passing a general ordinance or resolve offering to exempt all additional capital employed hereafter for manufacturing purposes, from taxation for a period of ten years. The different boards have referred the petition to a joint special committee, with whom the sub-committee have conferred, and a favorable report is expected. It is desirable that the action of the city be of such a character as will ensure exemption to outside capitalists, whenever they may come and apply for it, without leaving any doubt hanging over it, or the possibility of causing persons to break up and come here with an expectation which some future City Council may disappoint. What is needed is a clear, fair, complete engagement to do a certain thing, so that everybody can rely upon what we seem to say, and find it exactly so whenever they may make up their minds to come. In a word, we want the act so worded as to create an obligation on our part that we will do, and must do, what we promise, if any man pleases to come here and go to work. Such action will bring us capital and men to work it. No vague resolve which will leave each comer to the tender mercies of our future City Councils, will; and we believe we have a constitutional and legal right to take such action.

The committee has certain other matters in hand but they are not sufficiently matured to be reported upon. They are still at work and "mean business."

Mr. Darling of the Maine Farmer made a brief and excellent speech, in which he enumerated the advantages presented by Maine for manufacturing purposes. He was confident that if the matter of introducing manufactures into this city continued to be as earnestly agitated as at present, Bangor would ere many years have a population of fifty thousand.

Hon. Lewis Barker said he had a brief speech to make, and it was "probably the best he ever made." It was—"put me down on that list among the men giving $50 per annum for five years."

Hon. S. H. Blake said if the right men could be brought in here, who understood their business, to start manufactories, capital would overflow them, it would be so plenty, and he offered the following, as the sense of the meeting:—

The citizens of Bangor in public meeting assembled, desire to assure capital, whether possessed here or elsewhere, that in their opinion there are nowhere else in Maine so valuable and convenient facilities for large manufacturing establishments as on the Penobscot river at and between Bangor and Oldtown. The Penobscot has the largest volume of water of any river in the State, and [illegible] is in time is destined, we believe, to be the manufacturing centre of our State—a State that then shall be more distinguished for the fabrics of its looms and anvils, than it has yet been for the products of its fields and forests.

And we desire to assure each other and particularly skilled labor here and elsewhere, that nowhere else in New England are there so valuable woods of various kinds, or in such extent and quantity, as are afforded by the forests in the valley of the Penobscot and upon its tributaries, and that nowhere else in the State, if in the country, are they so cheap in the tree or in log or block—nor can they, we believe, be elsewhere so cheaply manufactured into the various forms of use adapted to the house or shop or field, or for commerce as here upon the streams upon which these forests lie, with all their wealth of woods, not yet touched by the lumberman's axe.

And we desire further to assure capital and labor from abroad and capital and labor at home as well, of our encouragement and aid and protection in any effort to utilize these products of the forest and to make available those local advantages, and we believe that no employment of capital and labor amongst us would be more remunerative than in the development of these resources, whilst they would thus stimulate the growth and prosperity of our city.

And to induce capital and labor to invest its dollars and its sinews in our midst, we pledge to them reasonable exemption from taxation, an economical administration of our city government, and a rigid confinement of all appropriations to strictly municipal purposes.

J. P. Bass, esq., spoke at length of the object of the guaranty fund which the Mayor and the Committee of Nine had alluded to. He was induced to take this step by advice of some of the best business men of Boston. He alluded to the great benefits certain to follow the introduction of the smaller manufactures, and said it was not yet time to commence an enterprise of such magnitude as the construction of a dam at Treat's falls. He was in favor of the sale of the "old burial ground" as proposed in the Committee's report, and was confident that before the season was over, substantial buildings would be erected thereon for manufacturing purposes.

The various reports of the committees were accepted, the statement offered by Mr. Blake declared to be the sense of the meeting, and the meeting adjourned one week, when the Committee of Nine will report farther.

LATEST NEWS IN BRIEF.

Two inches of snow fell at Albany, N. Y., Monday night, but melted next day.

The Central Railroad depot at Syracuse, N. Y., was badly damaged by fire Monday evening.

Wm. McGowa has been arrested in Paterson, N. J., for the murder of his wife, who was found in the Passaic river some time since.

The third mate and 13 of the crew of ship Seminole were arrested in New York, Monday, they confessing to having robbed the cargo during the voyage from San Francisco.

William Bean, 13 years old, fatally stabbed a playmate named Washburn, at New Haven on Monday. Young Bean is from Georgia, and came North to attend school.

The town of West Point, Miss., was nearly destroyed by fire yesterday. Fifty dwellings and the business houses were totally destroyed.

The American Methodist Episcopal Conference recommends jealous care and discrimination upon the subject of amusements and recognizes the civil and religious instruction of the freedmen as an imperative duty.

At the ruins of a malt-house in the burnt district of Chicago, workmen on Monday came upon some smouldering material which burst into flames on coming in contact with the air. Such occurrences are frequent, showing the existence of fire for over six months.

The committee on the reception of the press at the forthcoming International Peace Jubilee in Boston, has elected James R. Osgood permanent Chairman and R. C. Dunham Secretary. Preliminary steps have been taken to extend invitations to newspaper editors throughout the country to attend.

Another desperate attempt was made by disguised men on Monday to break into the jail at Clinton, Kentucky. A murderer and two men charged with rape are confined there, and the mob assert their intention of lynching the latter, but it is believed they are confederates who desire to rescue the murderer. The Governor has been asked for a military force.

THE HOUSE REPORT ON THE SALE OF ARMS. The report of the House committee on the investigation of the sales of arms, etc, during the Franco-German war, as presented on Monday, sums up its conclusion as follows:—

1st—That the act of Congress of July 20, 1868, authorizing the sale of unsuitable arms gave, by a fair interpretation of its letter and spirit, full authority to the Secretary of War to sell and dispose of the arms and ordnance stores in question and that in doing so he violated neither the letter nor spirit of the law.

2—That the proceeds of the sales were promptly paid into the Treasury.

3d—That no sales were made to any known agent of either belligerent Government and that no act was done by the Secretary of War or any of his subordinates that was calculated to impair or violate any international obligation.

4th—That no official of the United States Government was pecuniarily benefited in connection with the sales.

5th—That the only party benefited was the Government of the United States in having disposed of unsuitable arms at the highest market price to the amount of nearly ten millions of dollars.

The Grant mass meeting in New York this evening, called by the merchants and business and professional men of the city, will doubtless be a grand affair. There will be speaking not only within the hall of the Cooper Institute, but from several stands without. No politician or office-holder is to be concerned in the management. The call is signed by over two hundred of the best known and most respectable names in the city. It is directed to those who desire to publicly express their earnest confidence in "the sagacity, fidelity persistent energy and unfaltering patriotism of Gen. Grant." The leading names to the call are Peter Cooper, Edward Pierrepont, Henry Clews, James Gordon Bennett, E. D. Morgan, George Opdyke and William E. Dodge.

The Tammany Society have elected the following Sachems: Horatio Seymour: John T. Hoffman; Charles O'Conor; John W. Chandler; Samuel J. Tilden; Edward L. Donnelly; Sanford E. Church; John Kelly; Oswold Ottendorffer; Wm. C. Conner; August Belmont; Miles B. Andrews, and John Fox.

The New York World says the Trumbull-Schurz-Greeley meeting at New York was the Bunker Hill of a new Revolution. The Boston Traveller remarks:—"At that meeting the 'Liberals' were the attacking party; so were the British at Bunker Hill. The comparison is not a happy one at all. The World blunders as badly as its allies."

HEART DISEASE. Palpitation, Feeble and Irregular Action of the Heart Cured by Fellow's Compound Syrup of Hypophosphites.—FREEPORT, DIGBY COUNTY, N. S., *February* 10, 1869.—JAMES I. FELLOWS, ESQ.—*Dear Sir:*—Gratitude to you, and sympathy for the afflicted, induces me to send you a written statement of my case and cure effected by using your Compound Syrup of Hypophosphites.

In April. 1868, I was attacked with palpitation of the Heart, I sent for the Doctor, and he said that nothing could be done for me, and that I was liable to die very suddenly; being very weak and unable to leave my bed, I became discouraged.

After my physician gave me up, I was induced to use your Compound Syrup of Hypophosphites, and the effect was wonderful. In two days I felt the benefit of it, and after taking half a bottle I was entirely free from the complaint, and to this day have not been troubled with a return of the Heart Disease.

Yours, very truly, SARAH LENT.

Valuable Farm for Sale.
In the town of Houlton, Aroostook Co., one mile from Houlton village, on the Military Road, being a portion of the property owned by the late Planchas Barnes, of Portland.
It contains about 270 acres, well and strongly fenced, of which about 140 acres are under cultivation, 30 acres pasturage, with a never failing supply of water, and 100 acres of woodland; with a large growth of heavy hard wood timber. There are two large barns, 40 by 52 feet, one of them new; the other in good condition, with shed attached. Also, a small dwelling house upon the property. The Meduxnekeag river flows through the farm, and upon this stream, on reserved land, there is a saw mill and a plaster mill. On this same stream, close by the farm, there is a foundry and machine shop, a grist mill and a carding mill. For further particulars apply to J. C. MADIGAN, Houlton, and WILFRED BARNES, Portland.
Terms easy. Possession given immediately.

BY AND BY

There is an angel ever near,
When toil and trouble vex and try
And bids our fainting hearts take cheer
And whispers to us—"By and by."

We hear it at our mother's knee,
With tender smile and love lit eye,
She gently some boon on childish plea
In these soft accents—"By and by."

When visions crowd the youthful eye
What holy aspirations high
Nerve the young heart to do its best
And wait the promise—"By and by."

The maiden sitting and alone
Her thoughts half ... with a sigh

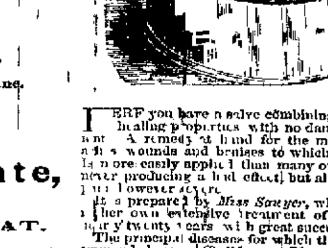
MISS SAWYER'S SALVE.



HERE you have a salve combining soothing and healing properties with no dangerous ingredient. A remedy at hand for the many pains and ... wounds and bruises to which flesh is heir. Is more easily applied than many other remedies, never producing a bad effect, but always relieving ... lowever severe.

It is prepared by *Miss Sawyer*, who has used it ... her own extensive treatment of the sick, for nearly twenty years with great success.

The principal diseases for which this salve is recommended are, *Chilblains, Rheumatism, Piles, Scrofula, Old Ulcers, Salt Rheum, Sprains, Burns, Fever Sores, Felons, Pimples, Erysipelas, Sore Eyes, Barber's Itch, Deafness, Boils, Ring worms, Corns, Bites of Insects, Cancers, Toothache, Earache, Sore Nipples, Baldness, Swollen Breasts, Itch, Scald Head, Teething, Chapped Hands, Scalds, Cuts, Bruises, Croup, Cracked Lips, and Sores on Children.*

It never fails to cure Rheumatism if properly applied. Rub it on well with the hand three times a day. In several cases it has cured palsied limbs. For *Piles* it has been discovered to be a sure remedy. Persons that have been afflicted for years have been relieved by a few applications. For *Erysipelas* it works wonders, allaying the inflammation and quieting the patient. For *Chapped Hands* it produces a cure immediately. Let those with *Salt Rheum* obtain this Salve and apply it freely and they will find it invaluable. It is good in cases of *Scrofula* and *Tumors*. *Cancers* have been cured with it. The best Salve ever invented for *Swollen Breasts* and *Sore Nipples*. No way injurious but sure to afford relief. *Sore or Weak Eyes*—Rub it on the lids gently once or twice a day. Cures deafness by putting in the ears on a piece of cotton. For *Felons* this is superior to anything known. For *Pimples* this acts like a charm. For *Burns* and scalds, apply the Salve at once and it gives immediate relief. For *Old Sores*, apply once a day.

Among the host of the invaluable properties of MISS SAWYER'S SALVE are its beneficial effects on the hair. Rubbed on the scalp, in five or six different parts, it promotes the growth of the hair, prevents it turning gray, and on bald spots it produces a new growth of hair. No lady should be without this invaluable article as an indispensable cosmetic for the toilet. It eradicates dandruff and disease from the head, and blotches and pimples from the face.

From Mrs ELIZABETH COOMBS, Brunswick.

Brunswick April 4 1867.

MISS SAWYER—I received your letter last evening and was very glad you concluded to let me take your Salve. I think I can do well with it and it will be quite an accommodation to my husband, *as he cannot go along without it.* He has tried everything else and has never found anything that he liked as well as that Salve of yours and we have both found it to be *all and even more, than you recommended it to be.* We have had it in the family five or six years and have used it for everything, and can *truly say we have never found its equal.* I use it for a weak back, and it acts like a charm. Mr Coombs has had a *Fever Sore on his leg for thirty years and would be a cripple to-day, if he had not found a remedy in your Salve.* It keeps it healed and takes out the inflammation, proud flesh and swelling, and does for him all that he can ask. I can recommend it for a good many things that you have not for I use it for everything. I consider it invaluable in a family. If you can put this testimony together and it can be of any service to you, you are welcome.

Yours, &c, ELIZABETH COOMBS.

TO THE AFFLICTED

If your Druggist is out of the Salve, and neglects to keep supplied, send seventy five cents as directed below, and receive a box by return mail.

For Sale.

Valuable Water Power Mills, Houses, Store &c, at Howland, Penobscot County, Me

The valuable property at the mouth of the Piscataquis River, County of Penobscot, Maine, consisting of a valuable Water Power, Mill Privilege, Mills, Houses, Store and Shops, and about forty-five acres of land adjoining, (being the property formerly owned and occupied by the late Hon Wm Miller,) making one of the most desirable locations for manufacturing lumber, or any thing else, in Maine. This also a particularly desirable location for a large Tannery, there being large quantities of Hemlock bark in the immediate vicinity.

—ALSO—

About twenty-three hundred acres of timber land covered with pine, spruce, Hemlock, Cedar, &c all within four and one half miles of the Mills, will be sold with the above if desired.

The above property is thirty five miles above Bangor, on the Penobscot River, and has easy communication with the European and North American Rail Road.

Parties wishing to examine will call on FRANK DAVIS, SAMUEL DAVIS, FRANK HEALES, or JOHN HALEY, at Howland.

For price and terms or any other information regarding it, call on or address D. W. MILLER, Attorney for the heirs of the late N. J. Miller, or N. JONES MILLER, JR.,

75,000 Acres
OF GOOD
Timber Land
For Sale at a Low Rate,

Situated on Moose River, in the town of Greig, Lewis County, New York.

Said timber consisting of White Hemlock, Spruce, Pine and Hardwood. The subscriber own two large tanneries, located on the aforesaid tract, which will consume the hemlock bark, thus enabling the land and timber to be purchased at a comparatively cheap rate. The timber is excellent in quality in all particulars. The aforesaid tract of land is easy of access, being only from six to fifteen miles from both the Black River R. R. and Black River Canal, which lead direct to the Albany Market. The land is comparatively level, well watered and good for farming purposes. Moose River, which extends through the tract, is a large stream and empties into Black River, where the aforesaid Canal leads into Black River. At this point, or junction of the rivers, is a fall of sixty (60) feet, over which the waters of both rivers flow, thus forming an unlimited water power (we might say right in the Canal and at the Depot,) to which Moose River will carry the immense amount of timber from the aforesaid lands.

Any parties desiring to manufacture lumber will do well to give this rare opportunity their attention. The land and timber can be purchased at a cheap rate or the timber alone permitted.

SPECIAL NOTICE.

W. P. WEEKS,

In HIGHT'S BOOKSTORE,

Has purchased a large stock of SPECTACLES, including all qualities, from the cheapest glass to the highest cost Scotch Pebble. He has the Perrescopic, concave and convex, both for near and far sighted vision, in gold, steel, and rubber frames.

Special attention given to the peculiarities of the eye, by two Opticians, who thoroughly understand the business. Those who are in want of Spectacles would do well to call and examine his stock before purchasing elsewhere.

He is also prepared to do all kinds of repairing, such as fitting new lenses, &c, &c. A satisfactory fit is warranted in all cases, or the money refunded. Remember the place

HARDY'S

In offering to the public at this time, HARDY'S GENUINE JAUNDICE BITTERS as a remedy for all Bilious complaints, so prevalent everywhere in the vernal season of the year I do not present any new and untried article puffed up by persons who perhaps are not known to any one but an old and tried article that has proved itself equal, if not superior, to any remedy of the kind, ever put into the market.

GENUINE

While I do not pretend to say they will cure all diseases human flesh is heir to, I do say they have been used for the last half century, and thoroughly tested by millions and by those, too, of almost every nation on the globe and in every variety of climate, and have proved themselves, beyond all question, unequaled by any medicine for all BILIOUS and JAUNDICY COMPLAINTS which are so common everywhere, and to prevent contracting infectious diseases peculiar to various climates.

JAUNDICE

These Bitters are not unpleasant to the taste, they are a moderate cathartic, cleanse the Stomach and Bowels of Phlegm and vitiated Bile, strongly invigorate the coats of the Stomach, promote digestion, and restore the loss of appetite.

They are invaluable for travelers, seafaring persons and those exposed to sudden changes of weather in warm climates, to the dyspeptic, and persons of sedentary habits. To such, they afford the most speedy relief when taken according to directions.

BITTERS.

Put up in Papers at 25 cents per package, and in large Bottles at 75 cents each.

[GENERAL NATURE—No 21]

AN ACT supplementary to the act entitled "An act to prevent the extermination of fur bearing animals in Alaska."

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Secretary of the Treasury be, and he is hereby, authorized to appoint one agent and three assistant agents, who shall be charged with the management of the seal fisheries in Alaska, and the performance of such other duties as may be assigned to them by the Secretary of the Treasury, and the said agent shall receive the sum of ten dollars each day, one assistant agent the sum of eight dollars each day, and two assistant agents the sum of six dollars each day while so employed, and they shall also be allowed their necessary traveling expenses in going to and returning from Alaska, for which expenses vouchers shall be presented to the proper accounting officers of the treasury, and such expenses shall not exceed in the aggregate six hundred dollars each in any one year. Provided, That such agents shall never be interested, directly or indirectly, in any lease of the right to take seals, nor in any proceeds nor profits thereof, neither as owner, agent partner, or otherwise.

SEC 2 That the Secretary of the Treasury be, and he is hereby, authorized to erect a dwelling-house upon each of the islands of St Paul and St George, for the use of said agents, the cost of both not to exceed six thousand dollars.

SEC 3. That the said agents be, and they are hereby, empowered to administer oaths in all cases relating to the service of the United States, and to take testimony in Alaska for the use of the Government in any matter concerning the public revenues.
